

This unique, portable clinical reference provides easily-accessible and clinically relevant monographs of herbs, spices, and aromatherapy oils for use by health care providers. The monographs, similar to those presented in nurses drug handbooks, contain information on the health risks of taking these substances with over-the-counter and prescription drugs, a behavior that is increasing among the general public. Assessment guidelines help providers monitor side effects, toxicity, and drug-herb/drug-spice interaction. Specifics of monographs include action, current use, pharmacokinetics, toxicity, contraindications, side effects, long term safety, use in pregnancy/lactation and use for children. Appendices provide drug-herb interaction tables, contraindicated herbs, a listing of do not take together herbs, and a listing by use/indication. Each monograph includes line drawings of each herb, and extensive reference and research listings.

Achieving the American Dream, Homeopathic Guide to Sex, Sexuality & Sexual Disorders (Paperback) - Common, Medium theory of the atonement: and review of Dr. Burneys Soteriology, Non-University Higher Education in Europe (Higher Education Dynamics), UCL Hospitals Injectable Medicines Administration Guide by The UCLH Pharmacy Department 3rd (third) Edition (2010), An Analysis of Propaganda, No Love Lost, Genuine Twelfth Five-Year Plan University Textbooks: Intellectual Property Law(Chinese Edition), Os Primeiros Anos (O Cheio de Graca Livro 1) (Portuguese Edition), New Latin American Landscape Architecture (2G Dossier) (English and Spanish Edition),
