

George Clason is best known for writing a series of informational pamphlets about being thrifty and how to achieve financial success. He started writing the pamphlets in 1926, using parables that were set in ancient Babylon. Banks and insurance companies began to distribute the parables and the most famous ones were compiled into the book *The Richest Man in Babylon*. It is this book which has etched the name of George S Clason into the history books and has provided generations of readers not just an inspirational classic for reading pleasure but sound practical principles of financial discipline. This is the most famous of his treasured works.
